
AIRCRAFT CLEANING PRODUCTS

EXTERIOR CLEANING PRODUCTS:

- Aerokleen CD1

High performance aqueous based biodegradable aircraft fuselage shampoo, designed to meet most exterior cleaning requirements. This product is equally suited to brush, foam or robotic application.(AMS 1526B, BOEING D6-17487 Rev. H, DOUGLAS CSD #1, AIRBUS, BRITISH AEROSPACE, TS 10281, GULFSTREAM, FAIRCHILD DORNIER)

- Aerokleen A310

High foaming aqueous based biodegradable aircraft fuselage cleaner, recently developed to meet the exacting requirements of the latest MOD aircraft surface cleaning compound specification. This product is equally suitable for use on civil aircraft and is particularly recommended where there is a need for a long lasting wet foam to achieve maximum dwell times. (AMS 1527B, BOEING D6-17487 Rev. L, DOUGLAS CSD #1, DEF STAN 79-17/1)

- Aerokleen A320 Gel

Heavy duty high viscosity biodegradable aqueous based aircraft exterior cleaner. Unique viscous non-streaking product that clings well, dries slowly and has high lubricity even when diluted with water. Contains naturally occurring citrus type additives to boost cleaning performance without compromising on environmental acceptability. (AMS 1526B, AMS 1533A, BOEING D6-17487 Rev. L, DOUGLAS CSD #1, SOUTH AFRICAN AIRWAYS, ROYAL AUSTRALIAN AIR FORCE, FAIRCHILD DORNIER, FOKKER SERVICES BV, DEUTSCHE LUFTHANSA)

- Aerokleen Aerosolv

Unique heavy duty water dilutable foaming micro emulsion cleaner, offering ultimate performance on heavily contaminated undercarriage or smoke trail areas. (AMS 1527A, AMS 1529A, MIL-C-87936A Type II, AIRBUS)

- Aerokleen Polish AN2001P

A superior liquid polish intended for use on large surface areas where an easily removable non-blooming product is essential. Water dilutable for use with robotic equipment.(AMS 1650B, BOEING D6-17487, DOUGLAS CSD#1, FAIRCHILD DORNIER)

INTERIOR CLEANING PRODUCTS:

- Aerokleen B

Cabin cleaner concentrate. Low foaming wipe-on/wipe-off biodegradable product, professionally reodorised to ensure a fresh and clean aircraft interior.(AMS 1550A, BRITISH AEROSPACE)

- Aerokleen B Plus

Concentrate biocidal product developed for use in galley and other areas to assist in the achievement of hygienic germ-free surfaces. Biodegradable and professionally reodorised. (AMS 1453)
